Personalizing Messages for Fitness Club Members

Assignment Brief:

You are working for a fitness club that wants to send personalized messages to its members. The goal is to use AMPscript to dynamically create content that will make each member feel valued and recognized. Your task is to craft an email message that utilizes AMPscript functions learned in Week 1 to personalize the message based on member data.

Requirements:

- Ensure that all member names are displayed properly and correctly.
- Display membership type to uppercase for emphasis.
- Calculate the date for the next scheduled fitness class, which is 7 days from today. (17/05/1995) format.

Sample Data:

MemberID	First Name	Last Name	MembershipType	LastVisit	LastWeight
1001	john	DOE	Premium	2024-05-20	180.5
1002	sArAh	smiTh	Basic	2024-05-18	150.2
1003	Mike	johnson	Standard	2024-05-15	220.7
1004	Emma	BROWN	Premium	2024-05-19	135.4
1005	chloe	TAYLOR	Basic	2024-05-17	210.6
1006	alex	MARTINEZ	Standard	2024-05-14	160.0
1007	olivia	anderson	Premium	2024-05-13	190.5

Code Snippet:

Hint: Code in ampscript.io and then copy and paste into below.

```
%%[

Insert your code here.

]%%
```

Input the variables into the template below.

Template:

Hello <first name>,

Welcome back to your fitness journey at our club! As a valued <membership type>member, we're committed to helping you reach your goals.

Your last recorded weight was <weight> lbs. Keep up the great work!

Just a reminder, your next scheduled class is on <next class date>. We can't wait to see you!

Best regards,
Your Fitness Club Team
